Nov. 13, 1994

To: Elgin City Council
From: Kevin Cooper, 2010 Coordinator
RE: Progress Report for October, 1994

The 2010 Committee updated their strategic plan in September and is still waiting for the updated plan to be sent from Rural Development Initiatives in Redmond. When it is received, a copy will be forwarded to each council member.

The 2010 Committee reviewed the drawings from Gary Hathaway on the Hunaha Park Project. The committee made several comments which were forwarded to Gary. Their primary comments dealt with the financial feasibility of the project, practical implications of the project design, and getting cost estimates. The committee will meet with Gary next week and will certainly encourage him to complete his work as soon as possible.

The committee is beginning its Christmas brick sales campaign. As you know, these bricks will help finance the new downtown park project. If you would like to purchase a brick, contact any 2010 member. We received our first order of bricks last month and the committee plans to distribute several of them around town in local businesses.

The committee met with representatives from The Union County Commission on Children and Families last month which at the time seemed to be quite a waste of time. However, one outcome of the meeting is a possibility to implement part of the social service network which is included in the strategic plan. We will be getting an update on this at our next meeting.

2010 is looking for more people to join in their efforts. There are several activities which have been discussed to recruit new members from the community. These efforts will become more targeted and focused over the next few months.

The next meeting is scheduled for Monday November 21, 1994. It will be held at the new Elgin School District office building and will begin at 7:00pm. Anyone interested in the future of the Elgin community is invited to attend.
